# Peonies and Gladioli

1923-24 List

Retail Only

Grown by

**WILBUR A. SISSON AND  
WILBUR A. LAWSON**

**Rosendale, Wisconsin**

Member American Peony Society and  
American Gladiolus Society

## **THE SISSON MEMORIAL PRIZE OF \$200.00 FOR A NEW PINK PEONY**

---

Founded by W. A. Sisson of Rosendale, Wisconsin, in honor of his mother, Pamelia Whitcomb Sisson, 1833-1920.

### **Conditions of competition:**

1. The winning variety must be a peony in a shade of deep pink, not previously introduced into commerce.

It must be approved by the judges as an important addition to best existing varieties.

2. The prize shall be open for competition from May 15, 1921, to July 15, 1925, unless it be awarded before the latter date.

3. The prize is to be awarded by the Nomenclature Committee of the American Peony Society for blooms shown at an annual exhibition of that Society.

4. At least three blooms must be shown, with not less than 15-inch stems, with foliage.

5. The winning variety is to be named Pamelia Sisson, and a root of it is to be presented to W. A. Sisson.

## LOCATION

My home is in the center of the village of Rosendale where I have my home garden. Our larger garden is located on the Guernsey farm of Mr. Lawson, one mile north.

Rosendale is on a triangle with Oshkosh and Fond du Lac, about twelve miles distant from each. Rosendale is on Highway No. 23. Oshkosh and Fond du Lac are on Highway No. 15, which passes through four states.

## GUARANTEED DIVISIONS

We sell nothing but small planting divisions. Each division should have one strong eye and perhaps two, and probably some small eyes with a root to grow the eyes.

When the root leaves our hands it is ready to plant and must not be cut further or tampered with. The roots we furnish may appear small, but they are not so small as they look as they have been cut well back and are ready to plant. All roots that we have ever bought come to us without having been cut back for planting and with the old stem rot intact and other decayed spots in evidence. These roots have to be trimmed and cut back and all refuse removed. When this has been done there is not much left.

Therefore, when we say that when the roots leave our hands they are ready to plant, this means something. Plant them as we direct and we guarantee them to grow and catch up with any other sized root in two years.

But you perhaps are saying, I do not want to wait two years. We reply that you will have to wait at least three years on any sized root, no matter how large, before you get true blooms and possibly four or five years to allow the plant to produce its best.

There are exceptions to all rules, but here is the rule that most people will agree with. The

first year you will have some blooms. The second year you will have a fair showing. The third year your plants will have become established and may reach perfection. If not, they will have reached their best in another year or two.

### **BE PATIENT**

So many write, "I want large roots, how large are yours," etc. Read the above carefully. Our claim is that our roots will reach and bear perfect flowers as soon as any other sized root will, no matter how large. A small-sized root can be planted correctly, a large root cannot. In any case the root has been disturbed and it will not establish itself until it has had time to do so. And so we state, you must be patient.

### **HOW TO PLANT**

All growers tell us how to plant and we are continually reading long articles on the subject. We have tried to tell what little we knew in the last folder issued, but still many write asking for more details, asking if they shall do this, that or the other.

Please do not look at planting as such a complicated matter. Use your common sense, you probably possess as much as the average person.

Select ground free from shade and well away from trees and well drained. Peonies will not do well on wet ground. They do better without quite enough water, than with too much water, so do not attempt to water your plants unless you have no rains at all and have to irrigate. Never sprinkle. If you experience endless dry spells, then you might soak the ground if you know how, but never sprinkle.

Assuming that you have good garden soil to work with, prepare it by deep spading and work up fine. Stake out the rows four feet apart. If for a permanent planting, plant three feet

apart in the rows. Take the roots just as we send them to you, dig a hole large enough to fit the root, place it therein and squeeze the dirt tight about each root and rootlet. See that the eyes are not more than two inches below the level of the ground. Then heap on mulch or any litter of straw, hay, lawn clippings, etc. If you have no mulch then heap on the dirt over the crown of the plant to form a drain. The litter is put on the first year to guard against freezing and thawing, which might raise the root. After the first year no covering is necessary more than the old stalks. Let them remain until Spring and then remove with all stray matter, keeping your garden free from refuse.

Keep manure off the field. Put your manure with leaves, sod and other available material, in layers and let it rot for one year, then throw the rich dirt over the field. Never plant your roots in mulch dirt, let the mulch work in gradually as you cultivate. If you have any wood ashes or can obtain any, put plenty of it between the rows and if you are careful you can place enrichment in this way. As the years go by, make soil a study and take care of it as your knowledge prompts you to.

### **KEEP THE DIRT MOVING**

Now we come to the important point, keep the dirt moving. Unless you do this, all your other care and work will avail you nothing. Cultivate and hoe every day. As soon as you get through the garden once, start right over again. Especially in dry times, every inch of ground should be carefully hoed or cultivated every day. When the plants come up the first spring, mulch with litter.

**Caution**—Having planted the roots we send you, do not dig or disturb for three years. It would be better to leave them four or five years. If you do not heed this caution, your plants may lose their vitality.

## **AMERICAN PEONY SOCIETY**

To those who are not members of the American Peony Society, we invite you to join. Write us or the Treasurer, Dr. W. E. Upjohn, Kalamazoo, Mich. Fee and dues first year are five dollars, thereafter three dollars. Members receive valuable literature on the peony and from year to year, bulletins that are issued.

## **ORDERS ARE FILLED IN FALL**

We begin to dig and fill orders the last of August and continue until freeze up. Our experience is that planting any time from September 1 until freeze-up brings good results. The late plantings seem to do as well as the early.

There are a few as yet who still cling to Spring planting. We do not believe in it and under no circumstances will we fill orders in the Spring, for the reason that it sets the roots back one year so there is nothing gained in time. Further, at this time the eyes are brittle and you are quite sure to do more or less damage. Our stock is too valuable to take these risks.

## **ATTENTION, PLEASE!**

Kindly remember that we do not solicit business other than to advertise in The Flower Grower and Bulletins that we carry a line of rare and expensive roots and bulbs. To those who write us we send our price list and absolutely to no one else. To those who favor us with an order we give it our best attention. On receipt of the bulbs or roots, if they do not look right to you and you are not satisfied, return them to us at our expense and we will refund your money, or send duplicate order as you prefer. If you accept and plant the order, we will endeavor to see that you come through all right. Unless we can satisfy a customer, we do not keep his money.

## **WE PAY CARRIAGE**

Yes, we pay all our own expenses and place your order in your hands free of any expense to you.

## **GRATIS ROOTS**

If you would like a few roots that you do not feel able to buy, give us a list of a dozen or more and we will try to throw in a few of them.

## **ORDERS BOOKED NOW**

Prices quoted herein subject to change without notice. Our stock is very, very limited.

Reference—Rosendale State Bank.

## **SISSON'S PEONIES**

**Rosendale, Wisconsin**

## SISSON'S PEONIES

---

List No. 1—Price one dollar each.

A nice planting root of probably two or more eyes.

**Adolphe Rousseau** (D. and M. 1892).

**Achille** (Calot 1855).

**Agida** (Unknown).

**Aksarben** (Ros. 1908).

**Albatre** (Crousse 1855).

**Albert Crousse** (Crousse 1893).

## **SISSON'S GLADIOLI**

---

Here you will find a partial list of our 1923-24 offering.

Prices given are for regular-sized bulbs. The price for bulblets will be one-twentieth the price of a bulb for small size and one-tenth for ordinary size.

### **BULBLETS ONLY**

It should be understood that we are growing expensive and rare bulbs in the main and that we shall have few if any bulbs for sale. If you are interested in the new introductions you will save money by buying bulblets from us.

### **GRATIS**

The custom among dealers is to put in gratis bulbs or bulblets—just what they choose. We prefer to have the customer select his own gratis. Please name several varieties that you would like.

### **AMERICAN GLADIOLUS SOCIETY**

If you are interested in Gladioli you will wish to join the American Gladiolus Society. Send two dollars to us or Mr. David Tyndall, Brockton, Mass., and this will make you a member and you will receive THE FLOWER GROWER, a monthly magazine published in the interests of all who grow flowers. Use enclosed yellow slip, please.

### **ORDERS BOOKED NOW**

Orders now booking for Fall or Spring shipment. Prices quoted subject to change without notice.

Retail only. Delivery charges prepaid.

Reference—Rosendale State Bank.
